#### **COMMITTEE FINDINGS AND ACTIONS**

In accordance with the provisions of the City of Santa Clara Zoning Ordinance, Sections 18.76.010 through 18.76.020 of the City Code for the City of Santa Clara, in order to grant architectural approval, the findings and determinations of the Architectural Committee shall be that the proposed development, as set forth in such plans and drawings to be approved, is based on the following standards of architectural design:

- (1) That any off-street parking areas, screening strips and other facilities and improvements necessary to secure the purpose and intent of this ordinance and the General Plan of the City are a part of the proposed development.
- (2) That the design and location of the proposed development and its relation to neighboring developments and traffic is such that it will not impair the desirability of investment or occupation in the neighborhood, will not unreasonably interfere with the use and enjoyment of neighboring developments, and will not create traffic congestion or hazard.
- (3) That the design and location of the proposed development is such that it is in keeping with the character of the neighborhood and is such as not to be detrimental to the harmonious development contemplated by this ordinance and the General Plan of the City.
- (4) That the granting of such approval will not, under the circumstances of the particular case, materially affect adversely the health, comfort or general welfare of persons residing or working in the neighborhood of said development, and will not be materially detrimental to the public welfare or injurious to property or improvements in said neighborhood.
- (5) That the proposed development, as set forth in the plans and drawings, are consistent with the set of more detailed policies and criteria for architectural review as approved and updated from time to time by the City Council, which set shall be maintained in the Planning Division office. The policies and criteria so approved shall be fully effective and operative to the same extent as if written into and made a part of this ordinance.

The Architectural Committee may require the applicant or owner of any such proposed development, as a condition to the approval of any such proposal, to modify buildings, parking areas, landscaping, signs, and other facilities and improvements as the Architectural Committee deems necessary to secure the purposes of this ordinance and General Plan of the City, and may require guarantees and evidence that such conditions will be complied with by the applicant. If the Architectural Committee is unable to make the findings and determinations prerequisite to the granting of architectural approval pursuant to the standards described above, the application shall be denied.
